Wedge tool preparation

- Mark the angled line on the 12 degree wedge tool. (*See following page for the diagram.*)
- An accurate wedge cut is important. To keep the wedge from slipping, place a tube of wide packaging tape onto the back of the wedge tool sticky side out.
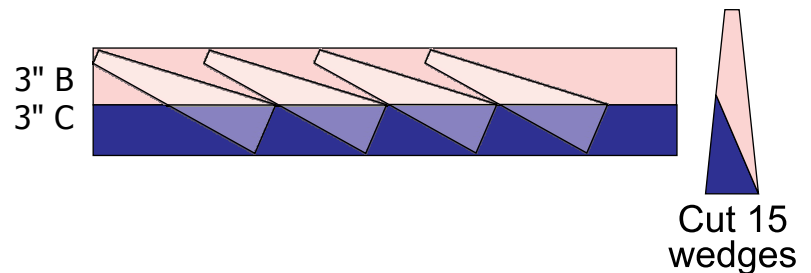

A/C wedges

- Sew three strip sets of A/C fabric.
- Cut five wedges from each A/C strip set, for a total of 15 wedges.
- Remove the tape from the wedge and place it on the other side to reverse the angle of the line.
- Cut five reverse wedges from each B/C strip set.

Cut 15 wedges

- Pin an A/C wedge to a B/C wedge, matching tips and wide ends. Be careful not to stretch the bias edges.
- Sew two wedges together, matching both the tip and wide ends.
- Sew the 15 wedge pairs.
- Sew the wedge pairs together to form a circle.

Center Applique

Trace the angled line onto the 12 degree wedge tool using a removable marker.

- Stabilize the center opening by ironing a scrap of freezer paper to the back side.
- Using the circle on the next page, create a freezer paper applique.
- Applique the circle over the center opening.
